## THE ASSOCIATION CHAIRMAN'S ADDRESS

Tunisia's economy posted a 3.1% annual growth rate in 2009 despite fallout from the international crisis on national activity and preserved financial and economic fundamentals, this was made possible due to different undertaken reforms and public authorities prudence.

The Tunisian banking sector was not affected by the crisis. It managed indeed, to remain dynamic to continue supporting Tunisian activity and helping businesses with economic difficulties. Thus, overall outstanding balance of loans was 36.3 billion dinars at the end of 2009, an increase of 10.6% compared to the year before.

Stabilization policy of the banking sector and consolidation of financial foundations as well as the pursuit of efforts to keep risks under control led to a fall in non-performing loans rate, down from 15.5% in 2008 to 13.2% in 2009. Worth of note that, the national target for 2009 was fixed at 15%.

An action plan "communication" was set up within the Association new development strategy for the period 2009-2011. This aims at making financial and banking culture better known by the large public and the sector professionals.

Within a new vision based on new values, this action plan integrates a regional, national and even international information watch programme which consists in implementing an active policy of reliable and relevant information meant to make the banking profession better known and improve its image while defending its interests.

## A- INTERNATIONAL ENVIRONMENT

### INTERNATIONAL ENVIRONMENT ON THE WAY OF PROGRESSIVE RECOVERY

Since the end 2008 and till the beginning of 2009, most advanced economies experienced deep recession.

Emerging and developing countries were hard hit by lower volume of exports and collapse of commodity prices, as well as decreased inflows of international capital.

The international financial crisis which became more serious after Lehman Brothers bankruptcy in September 2008 led to the worsening of the situation on the main financial centres and increased all operators' uncertainty and anxiety.

The high number of bankruptcies brought about a significant worsening of employment which led to a sizeable increase in unemployment rate.

World demand shrinking was followed by lower inflation in most industrialised economies.

Households' and enterprise managers' confidence was progressively shaken and world trade posted a slowdown. It dropped significantly during the last quarter of 2008 and the first quarter of 2009 to start stabilize towards the middle of the year, at the same time of world demand recovery, notably, demand from asian economies, in particular, from China. Over the whole year of 2009, world trade decreased by 10.7% vs a 2.8% increase in 2008.

World activity enjoyed renewed growth starting the third quarter of 2009 thanks to budgetary and monetary measures implemented as soon as recession first signs appeared at the end of 2008. The measures taken allowed to prop up progressively demand, regain economic operators' confidence and avoid world financial markets systemic risk.

On the whole, world economy recovery resisted better than expected: -0.6% vs -1.1% expected at first. In 2008, world growth was 3%.

However recovery was not the same everywhere. Indeed, improvement was rather low in most advanced countries, whereas it was significantly more vigorous in emerging and developing ones.

Advanced economies posted a 3.2% drop in growth compared to an 0.5% increase in 2008; while emerging and developing countries posted a 2.5% growth vs 6.1% a year before.

The main stock market indexes, after having fallen to the lowest levels in March 2009, went up significantly influenced by economic recovery and improved world demand. Markets remained highly volatile, influenced by renewed investors' aversion to risk.

International foreign exchange markets were marked by the American dollar depreciation against most other main foreign currencies.

## B- NATIONAL ECONOMIC ENVIRONMENT

Tunisia's real economy was affected by fallout from the international economic and financial crisis over the first months of 2009.

Industrial activity significantly dropped and some export oriented sectors posted big losses, in particular, mechanical and electrical industries and textiles and clothing under the impact of falling external demand.

Tourism and air and maritime transport were hard hit too.

Foreign capital flows were seriously affected as well.

Thanks to measures taken by Tunisia's political and monetary authorities and improvement in international environment, adverse effects of the crisis on Tunisia's economy were limited and progressive recovery marked national activity starting the second semester of the year.

Tunisia managed to post overall satisfactory results thanks to good agricultural season and improvement in cereal production, tree farming and services.

Thus, economic activity posted a 3.1% annual growth rate in 2009 vs 4.5% in 2008.

Regarding prices, the inflation rate went down in 2009 to 3.7% vs 5% in 2008. This lower rate was due mainly to food and energy trends as prices fluctuated on world markets combined with the effects of suitable monetary and budgetary policies.

The downward trend in prices observed since the beginning of 2009 led the Central Bank of Tunisia to lower its key rate by 75 base points, down to 4.5% when it held its Board meeting on 17 February 2009. This decision aims at easing enterprise financial costs and facilitating the financing of the economy.

This initiative was accompanied by other decisions taken within the framework of efforts made to guard against the crisis adverse effects on national economy and competitiveness of tunisian small and medium-sized businesses, of which :

- The possibility to reschedule unpaid repayments that fell due or that will fall due over the period from 1<sup>st</sup> October 2008 to 31<sup>st</sup> December 2009 without reviewing the enterprise claim classification (law n°2009-82 of 30 December 2009),
- Extension of timely measures to companies located in economic activity parks and to partially exporting companies in difficulty for the years 2007 and 2008 in order to make all tunisian companies, likely to be hit by the international financial crisis, benefit from the state support.
- Dispension from payment of provisional instalments for companies encountering difficulties and the turnover for 2009 of which decreased by 15% at the most compared to 2008 (law 2009-40 of 8 July 2009).
- Setting up to the benefit of banks permanent 24 hour loans or deposits to allow them meet their needs or invest their temporary liquidity surplus to the Central Bank of Tunisia (circular to credit institutions n°2009-07 of 19 February 2009 organising monetary market).

## A- THE SECTOR CONTRIBUTION IN ECONOMIC DEVELOPMENT

### **FINANCING THE ECONOMY**

Trend in the financial system resources and their counterparts were marked in 2009 by a more substantial increase in net claims on the State, 953 MTD vs 108 MTD in 2008 combined with slower pace growth in financing the economy (10.3% vs 14% in 2008).

### **I/ SIGNIFICANT INVOLVEMENT IN FINANCING ALL ACTIVITY SECTORS**

#### **■ Trend in financing the economy**

Amounting to 36,060 MTD in 2009, financing of the economy progressed just 10.3% compared to a more significant rise in 2008: +14%. This trend reflects slower growth in the outstanding balance of loans from ordinary resources (+11.0% vs 15.6%) and a drop in the outstanding balance of loans from special resources and that of treasury bills (-3.3% and -33.6% vs -1.9% and -2.7%) respectively.

The banking sector doubled its effort in 2009 to support the financing of the economy.

Against this background, banks continued to support different economic operators, notably university-graduate young promoters.

## ■ Financing structure

The banking sector, highly aware of its role in financing the economy, spared no sector in its financing strategy.

Thus, financing of the economy continued to benefit from special attention from the sector.

\* Loans given directly to farmers.

The share devoted to the services sector from the outstanding balance of loans granted by the financial system to the economy improved, up to 44.9% compared to 27.4% and 3.7% for industry and agriculture and fishing respectively.

Totalling 36.2 billion dinars in 2009, the outstanding balance of loans granted by the financial system to the economy as shown by risk data base and individual loan registry rose just 10.6% vs 13.2% a year before. This upward trend characterised much more the outstanding balance of investment loans, up 22.1% in 2009 vs 20.6% in 2008. However the outstanding balance of operating loans was on the downward trend.

The outstanding balance of short term loans which amounted to 16.1 billion dinars in 2009 dropped 1.2% vs a 6.6% rise in 2008. This fall was caused by granting less loans to industry and services sector (-1.7% and -0.1% vs +14.2% and +11.1%) respectively.

The outstanding balance of investment loans grew 22.1% in 2009 vs 20.6% in 2008. This increase was due to faster pace growth in medium and long term loans granted mainly to services, despite slower pace growth in loans granted to industry and agriculture and fishing; thus raising its share from 50.4% in 2008 to 55.7% in 2009.

## 2° FINANCIAL INSTITUTIONS SUSTAINED SUPPORT

### ■ Leasing companies intervention

Leasing contribution to financing of the economy kept on strengthening in 2009 thanks to the opening of six new agencies. In effect, disbursments went up by 23.9% in 2009 (compared to 12.7% in 2008) to 1,019.3 MTD vs 822.7 MTD in 2008.

This increase in net proceeds led to a two percentage point rise in the operating ratio to 34.1% in 2009, despite higher charges due to staff costs following recruitment in the sector.

Solvency ratio was 20% at end 2009 compared to 19.8% in 2008 despite the sector activity improvement due to core funds consolidation under the form of raising capital and subordinate borrowings.

### ■ Other financial institutions contribution

The factoring sector consolidated its contribution to the financing of the economy but at a less high pace than in 2008. In effect, the volume of purchased invoices went up by 7.6% in 2009 compared to 10.4% in 2008, to 485.4 MTD.

Intervention by the sector benefited 640 members for 29,576 buyers in 2009, compared to 566 members and 26,806 buyers a year earlier ; the same ratio of buyers to members as in 2008.

## B- CONSOLIDATING FINANCIAL FOUNDATION

The banking system is in line with orientations that aim at consolidating its financial situation and implementing reforms which promote its activity and improve its performance.

Indeed, faster reform pace over the last three years made it possible to achieve significant improvement. These achievements underline progress made by the Tunisian banking system both in the indicators of financial soundness and in the quality of non-performing loans portfolio.

To consolidate their core funds and to conform to international standards, banks continued their effort in 2009 strengthening their financial foundations though transactions of their nominal capital increase.

### 1°/ FINANCIAL BASE

Core funds grew in 2009 by 431 MTD or 11.2% to 4,291 MTD which proves banks financial bases soundness.

As for portfolio quality, there were ongoing efforts in 2009 to keep risks down and to have banks deal actively with non-performing loans. This had a positive impact on the share of non-performing loans in total commitments which fell from 15.5% in 2008 to 13.2% in 2009.

### 2°/ ACTIVITY INDICATORS

#### 2.1 : Net Banking Proceeds (PNB)

Upon examining tunisian banks<sup>(1)</sup> indicators activity, overall net banking proceeds totalled 1,804 MTD in 2009 compared to 1,684 MTD in 2008, up 7.1% or 120 MTD.

#### 2.2 : Net Commissions

Net commissions on banking transactions were 376 MTD in 2009 compared to 350 MTD in 2008, a 7.5% increase vs 9.1% in 2008 due to less transactions related to foreign trade

#### 2.3 : Result

Banks' net result came to 461 MTD in 2009 compared to 395 MTD in 2008, up 16.8%. This is attributable to improvement in Net Banking Proceeds despite increasing operating costs due to wage increases, expenditure committed by banks to restructure information system and the growing density of bank branch networks.

---

<sup>(1)</sup> The analysis concerned the 20 all-purpose banks of Tunisia Centre:ATB, BFT, BNA, BH, ATTIJARI BANK, BT, AMEN BANK, BIAT, STB, UBCI, UIB, CITIBANK ONSHORE, BTK, STUSID BANK, TQB, BTE, BTL, BTS, ABC and BFPME.

## 2.4 : Operating Ratio

## 2.5 : Return on Equity (ROE), Return on Assets (ROA) and Transformation Ratio

The increase in banks' net result had a positive impact on the profitability of capital stock equity, with Return on Equity (ROE) up from 11.2% in 2008 to 11.7% in 2009, while Return on Assets (ROA) remained at the same level as in 2008, at 1%.

Transformation ratio, defined by the relation between loans and deposits, fell 1.9 percentage point to 93.7% in 2009 vs 95.6% in 2008.

Against this background, the use of bank card as payment instrument continued to confirm its position, notably, as a means of payment.

Bank card has experienced significant and sustained progress over the last five years due to combined efforts between the Central Bank of Tunisia, APTBEF and the banking profession. This improvement was made to the detriment of electronically cleared cheques.

## **2°/ Electronic – clearing project**

In line with directives from the Central Bank of Tunisia, technical meeting between Electronic Clearing interbank company (SIBTEL) and Tunisia's Professional Association of Banks and Financial Institutions (APTBEF) were held to migrate from Electronic-Clearing National System to the 24 hour version.

### I°/TRAINING THAT CONFERS A DIPLOMA

#### a - Medium-Term Cycle

##### I - Trend in registrations

The following table shows trend in registrations in medium-term cycle at the Banking Training Professional Centre (CPFB) for the period 2006-2009 :

Session	Number of Registered		Total
	Common Curriculum	Specialization	
2006/2007	125	55	180
2007/2008	199	51	250
2008/2009	156	47	203

Breakdown by those registered in specialization over the same period is shown in the following table :

2008/2009	47	-	47
<b>TOTAL</b>	<b>127</b>	<b>26</b>	<b>153</b>

"Customer relations" specialization, as shown by the table above, remains the tunisian banks' main concern for the running period; which explains the strategic position this specialization has in activity plans of point of sale in the tunisian banking system network.

Worth of note that 2008/2009 academic year was marked by the coming into force of study reform in CPFB cycle. This reform consisted mainly in reducing the study programme from six semesters to four semesters breakdown as follows: one semester devoted for common curriculum and three semesters for specialization, focusing on more specialized and operational training.

Training for specialization three semesters of this entering class began in January 2010 and concerns 64 candidates. This training deals with three specializations: Customer Relations, Transactions with Abroad and Credit and Collection.

The second entering class of the new regime with regard to CPFB Medium-Term Cycle began Common Curriculum semester in December 2009 with 130 bank employees.

## 2 - Entering – Classes results

Regarding the study programme of training that confers a diploma of CPFB medium term cycle, 2009 was characterised by the end of studies for the sixth and last entering class of the previous system. Statements of diplomas earned from specialized banking training of the 4<sup>th</sup>, 5<sup>th</sup> and the 6<sup>th</sup> entering classes are shown the table below:

	Diplomas earned 6 <sup>th</sup> entering class	Diplomas earned 5 <sup>th</sup> entering class	Diplomas earned 4 <sup>th</sup> entering class
	IN %	IN %	IN %
Front Office Specialization Customer Relations	88,2%	88%	84%
Middle Office Specialization Financing / Commitment Collection	50%	83%	65%

<b>TOTAL</b>	<b>87%</b>	<b>88%</b>	<b>79%</b>

Pass rate in the Major Oral tests to grant the Diploma of Specialized Vocational Training for the 6<sup>th</sup> entering class was 87% vs 79% and 88% for the 4<sup>th</sup> and the 5<sup>th</sup> entering classes respectively. This improved pass rate due to better management and consolidated preparation of the candidates through the introduction of preparation days for the Major Oral test.

## 3 - Certificate of Bank Commercial Adviser

This certificate was set up in partnership with CPFB France. It is a training that confers a certificate. It aims at endowing bank branches network with a salespeople body capable of building qualified sales force to sell products and services. ### b - Upper cycle : Banking Technical Institute

The number of candidates from the tunisian banking sector registered at the Banking Technical Institute Paris, progressed over the last three years as follows:

1 <sup>st</sup> year ITB	81	85	57
2 <sup>nd</sup> year ITB	175	54	37
<b>TOTAL NUMBER</b>	<b>256</b>	<b>139</b>	<b>94</b>

For the academic year 2008-2009, the total number of registered in ITB programme organised within a partnership with CPFB France dropped compared to the academic years 2007-2008 and 2006-2007. This decrease is significant mainly in the number of those registered in the first year, because of coming into force of the new regime meant exclusively to those who got the diploma of CPFB Medium Term Cycle and those who have the Baccalaureate and studied two years at university starting September 2006.

### **c - Upper Cycle :Vocational MBA**

With regard to MBA Risk Management organised in partnership with Tunis High Institute of Management, the rate of eligible candidates for the second year, from the first entering class is 94%. As for the second entering class of the above – mentioned MBA, the pass rate for the second year of studies is 95%.

On the other hand, the last stages to set up a second vocational MBA in finance, in partnership with Tunis Private Mediterranean University and the French University Cergy Pontoise have been undertaken. Moreover, training programmes organised in Tunis within partnership with the Agency for the Transfer of Financial Technology in Luxembourg (ATTF) were consolidated. A seminar was organised in Tunis on "Establishing Compliance plan from non-conformity risk map", in which executives in charge of the sector conformity control took part. Both partners work on organising missions in Luxembourg in the form of practical training to the benefit of Credit Institutions' executives (Compliance officers, Quality...).

Enclosed table of appendix I breakdown by topic the number of those who benefited from these carried out activities over 2009. Appendix II tables take back breakdown, by member institution, participants' number in 2009.

### **3°/ REMOTE TRAINING**

Over 2009, Remote Training System was strengthened for cycles that confer a diploma (Upgrading, MBAs) to meet increasing needs in these fields. A local partner has been identified to modernise the APTBEF's present system. The new system can also benefit to member institutions for some specific needs. For such operation being associated with a private partner can be profitable to all parties. This partnership is concretised as follows: Remote training in languages and micro computing :

- Preparation to launch a related programme was made. A presentation of the mentioned system was made to financial institutions' training managers.
